EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 5, 11-13, 24, 30-32 and 41 to a species non-elected without traverse. Accordingly, claims 5, 11-13, 24, 30-32 and 41 been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art, specifically Euteneuer et al. (USPN 5,445,646), teaches a stent assembly with a stent and a cover material having first and second sections forming an overlap portion between proximal and distal ends of the cover material, wherein the overlap portion is configured so that the first and second sections are slidable with respect to each other along the longitudinal axis of the stent, and wherein the first section is shorter than the overall length of the stent. What this prior art fails to teach is the limitation of the cover material proximal and distal ends being attached to the *stent*, as required by claim 1. Euteneuer et al. also teaches the proximal end of the second section and distal end of the first section being slidable along the longitudinal axis of the stent and forming an overlap portion, but fails to teach the covered stent assembly being capable of performing the

function of the overlap portion shortening along the longitudinal axis of the stent *as the stent expands*, as required by claim 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
